

G 114

## Overview

- 9 x 9 x 4.5
- 120 Volts, 12amps, 1500 watts
- Premium grade firebrick
- Excellent element design
- Fires to 1700F
- Infinite switch for precise control
- Element is protected by a quartz tube
- CSA approved

## Product Description

The Tuckers Cone Art G114 glass kiln is an excellent choice for the home studio for fusing, slumping and annealing glass.

Since the element is enclosed in a quartz tube it is safe to place beads on the mandrel into the kiln. There is a hinged lid as well as a flip up door for annealing.

There is also a brick door for use when fusing. All Tuckers Cone Art Kilns are manufactured in Ontario and are C.S.A. approved.

## Furniture Kit

- 1 - 8" x 8" shelf
- 3 - 1/2" posts
- 1 - kilogram kiln wash
