

G 117

Overview

- .69 Cubic feet
- 120 Volts
- Fires to 1700F
- Kanthal A-1 Elements
- Premium firebrick

Product Description

The Tuckers Cone Art G117 glass kiln is the perfect choice for the home studio for fusing, slumping and annealing glass. There are Kanthal A-1 elements in the lid. The walls are 2 1/2" of premium grade firebrick. The jacket and fittings are all corrosion resistant stainless steel. This kiln can be plugged into a normal wall outlet.

Controller options

The G 117 is available with the economical quick set Bartlett 3 button controller or the full featured Bartlett V6 controller.

This kiln is also available with an infinite switch only.

Furniture Kit

- 1 - 13 dia x 5/8" full shelf
- 3 - 1/2" posts
- 1 - kilogram kiln wash
