

G 2309

Overview

- **G 2309 - 2.3 Cubic ft**
- **208 or 240 Volts**
- **40 Amp breaker required**
- **Kanthal A-1 elements**
- **New Tuckers Cone Art lid lifter as an option**

Product Description

The Tuckers Cone Art Kiln model G2309 seems to be the perfect size for many glass artists for slumping and fusing glass. One can produce many small items right up to relatively large pieces.

There are Kanthal A-1 elements in the lid and walls.

The walls are 2 .5" of premium firebrick. The jacket and fittings are all corrosion resistant stainless steel.

This kiln is available as the G 2309 that is 9 deep or the very popular G 2313 which is 13 " deep.

The new Tuckers Cone Art lid lifter is available as an option.

Lift the lid with one finger.

Control Options

When purchasing a kiln of this size we recommend the addition of the Bartlett V-6 full-featured controller for easy precise control.

These models are also available with the Quick Set Bartlett 3 button controller or with infinite switches only.

Furniture Kit

- 1 - 21" dia x 3/4" full shelf
- 3 - 1" posts
- 1 - kg kiln wash
