- **208 or 240 Volts**
- **60 Amp breaker required**
- **Kanthal A-1 elements in lid and walls.**
- **New Tuckers Cone Art lid lifter as an option.**

Product Description

The Tuckers Cone Art Kiln models G 2809 and G 2813 are excellent choices for doing large amount of glass fusing and slumping. It is a full 28" across and comes either 9" deep or 13 " deep.

The walls and lid are 3" brick which helps with slower cooling. The jacket and fittings are all made with corrosion resistant stainless steel.

Kanthal A-1 elements are in both the lid and the walls for even firings.

The Tuckers Cone Art models G 2809 and G 2813 come with our new lid lifter as an option.

Lift the lid with one finger!

Controller options

When purchasing a kiln of this size we recommend the addition of the Bartlett V-6 full-featured controller for easy precise control.

These models are also available with the Quick Set Bartlett 3 button controller or with infinite switches only.

Furniture Kit

- 1 - 26" dia x 3/4" full shelf
- 3 - 1" posts
- 3 - 3" posts
- 1 - kg kiln wash
