Reference Codes	Description
1	2500 F (max) Can be used as a Porcelain Body Stain
3	2300 F (max) All purpose
4	1976 F (max) All purpose
5	NA Do not use zinc in glaze
6	NA May be used with or without zinc
7	NA Best Results with zinc
8	NA Best Results with No zinc
9	NA Glaze must contain 6.7 to 8.4% CaO (12-15% CaCO ₃ / Whiting)

\$300 Clay, Glaze and Chemical Orders ship for only \$20.00

Descriptions:

Pottery Plaster: Good all purpose Plaster. Used for slip and press molds. Georgia Pacific equivalent = K59 Pottery Plaster

Hydrocal: Compression strength is twice that of pottery plaster. Good for case molds. GP equivalent = Denscal WH

Hydrostone: Suitable where high-strength and resistance to wear are necessary. GP equivalent = Denscal ST

Ultraca: A low absorption gypsum cement made for close tolerance tooling. GP equivalent = Densite K13

FGR Plaster: Long set time permits fabrication of strong, fiberglass-reinforced items. GP equivalent = Densite HL
